

## April 25 - "Change by Knowing" Theme !

**Peichen Gu**, the Toastmasters for the meeting, is challenging us with this theme. Gaining more knowledge has brought Peichen her success and wants now to challenge others.

The following was discovered about this theme via ChatGPT.

“**“Change through knowledge”** refers to the concept that gaining new information, insights, or understanding can lead to changes in behavior, beliefs, attitudes, or actions. It suggests that as people learn and acquire new knowledge, they may reassess their perspectives, make different decisions, or adapt their behaviors accordingly. This idea underscores the **transformative power** of knowledge. When individuals acquire knowledge, whether it's through education, experience, or exposure to new ideas, it can challenge preconceived notions, expand horizons, and ultimately influence how they perceive the world and interact with it.”

Join Wild Rose Thursday April 25 in person, or on Zoom. Meeting starts at 6:30 pm (mountain time). Us the 'contact us' to get the zoom meeting details
