

Dealing with Change - October 28, 2021

Yogi says - when you come to a fork in the Road, Take it !

Past International President, **Ed Bick** from Iowa, will be our special guest presenter on this theme.

During his session (title above) he will explore the various anatomies of change, how we react, what we can control and what we can't, and what we can do about the changes we all face.

Expect to be put to work during this session, and he advises to have a pencil and paper ready with you during the session.

The meeting will also see project presentations from **Inger Eakin** and **Tony Klassen**. Table Topics will be hosted by **Garfield Hiscock**
